12" Vertical Rack Cable Manager

Part No: CMA-00083

Region: Global

Molex's High Density Cable Management Solution is the perfect partner to Molex's extensive Network Connectivity product range. Particular emphasis in the design and construction, has been made to providing a functionally flexible, sturdy, strong and durable platform capable of supporting installations where frequent changes occur and enduring multiple system equipment and cabling life cycles. Continued growth in fiber optics and increased acceptance of Cat 6A systems has created the need for deep and wide cable managers, proper bend radius management and robust cable organizing features. Fundamentally effective cable management and neat, organized appearance is now a reality.

Features & Benefits

- Critical support for bunched patch cords moving from patch panels to the frame at the ideal bend radii, maintaining quality connections at all times
- Fingers in 1U intervals on both the front and back of the cable manager enable dedicated management to patch panels and equipment
- Excellent pathway definition for ease of management, preventing tangling and ensuring integrity of lay-out
- Flexible slack storage and cable routing by allowing re-routing of cable via the moveable Quick Fit Cable spools and large apertures
- Flexible equipment management with quick snap finger grooves allowing for expansion from 1U to size required. Replacement finger guide gangs allow re-configuration
- Dual hinged light weight aluminum front doors allow access from either the left or right side of the cable manager with handles flush mounted
- Multiple hook and loop style tie points and pass through holes built into vertical cable manager channels on both the front and back sides

Technical Info

Material

Brackets: Cold Rolled Steel (CRS)

Doors: Aluminum

Spools: ABS

Finger Guides: ABS

Color

Brackets & Door: Black Powder Coat

Spools: Black

Finger Guides: Black

Door: 304.8 x 25.4 x 2079.3

Weight (kg)

Bracket: 29

Door: 3.7
